Fairmont Hotels & Resorts' sustainability philosophy was developed with the goal in mind to ensure our brand addresses environmental operations at our properties worldwide. To implement this vision, Fairmont has embraced policies that reduce waste, conserve water and energy, address climate change, and support sustainable communities. Fairmont will continue to expand on a 20 year commitment to the environment, addressing new challenges, while providing innovative sustainable solutions and expanding on current programmes and initiatives. For more information visit www.fairmont.com

Raffles Hotels & Resorts' REACH (Rendering Encouragement, Assistance, Care and Hope) programme supports the well-being of the communities in which their hotels operate. REACH has been at the centre of Raffles' community care efforts since 1997 and has since grown to new destinations where each Raffles hotel and resort selects projects of its choice to lend care to children and the community. For more information visit www.raffles.com

Swissôtel Hotels & Resorts firmly believe that a successful business and a corporate responsibility for sustainable development go hand-in-hand. It is for this reason that Swissôtel has developed and implemented a global approach to sustainability management. This has included the worldwide deployment of standards, commitments, procedures, systems, tools and reporting requirements at all properties. Sustainability at Swissôtel is represented in four categories: Team Members, Environment, Community and Stakeholders. For more information visit www.swissotel.com
